IN-EAR HEADPHONES WITH REMOTE + MICROPHONE

HIGH QUALITY IN-EAR HEADPHONES

Drawing on half a century of Denon headphone engineering experience, the new 2016 models are designed to combine comfort with no-compromise sound. Aimed at those who want the very best sound whether travelling, working or relaxing, the new in-ear models are packed with advanced Denon technologies, designed to deliver the best possible performance from compact, lightweight earphones.

FEATURES

Ergonomic aluminum diecast / resin hybrid housing for best sound and fit

Stylish Apple remote control and microphone for control and talk

Radial Cascade Damper for suppressing cable-noise

Denon Acoustic Optimiser for powerful and detailed sound

TX400 Comply ear-tips for comfort fit

Four pairs of silicon ear-tips (XS, S, M, L)

Cable Clip

New easy to go carrying case

Available in Black and White

High Quality Driver Technology

The AH-C620R, available in black and white, uses an 11.5mm driver, mounted in housings combining die-cast aluminium and resin. Tuned for a flat QE curve, it delivers powerful bass and ultimate clarity at the same time.

Remote and Mic

The AH-C620R comes with a high quality cable and a 3-button remote controller including a microphone, letting you control music functions for your iPhone such as Play/Pause, Forward, Rewind, or Volume. Or use it to answer an incoming call or end the call.

Denon Acoustic Optimiser

Special ports to the front and rear of the housing help equalize the air-pressure in front of and behind the drivers. It's all part of making the sound as dynamic and distortion-free as possible.

Special Comply ear-tips

The AH-C620R is fitted with Comply TX400 ear-tips, which combine with the ergonomically-shaped housings to give a secure fit for the purest sound and maximum isolation from external noise. The tips use memory foam activated by the heat of the user's ears, and have an integral wax-guard to keep the inside of the earphones clean.

Radial Cascade Damper

Audio enthusiasts often complain about the noise generated from the cable rubbing against their chest when they're moving. Denon's specially designed Radial Cascade Damper system reduces cable-transmitted vibration noise, enabling you to enjoy studio-quality music on the go.

Denon Audio App

The AH-C620R can be used with the dedicated Denon Audio Application for iOS and Android, allowing you to enhance the sound and tune it to suit your personal preferences.

SPECIFICATIONS

Impedance	16 ohm
Sensitivity	110 dB/mW
Maximum power input	250 mW
Frequency response	6-40,000 (Hz)
Weight	6.6 g (not including cable)
