Denon's Music Maniac Over-Ear Headphones are elegant, sophisticated, high-end designs that offer sound quality to match. Featuring Denon's 50mm "Free Edge Nano Fibre" drivers, pentagonal memory foam ear pads that articulate 360° and detachable cable connections, these headphones deliver the best performance and comfort no matter what type of music you're listening to.

SOUNDS LIKE YOU

So acoustically pure, it's like hearing your favourite song for the first time

With Denon's AH-D600 headphones you are guaranteed class-leading sound quality. You will experience every nuance of a recording, with the designs offering a sophisticated sound with exceptional clarity. It is like hearing your favourite song for the first time. Built to deliver the very best performance for the price, these headphones offer exceptional attention to detail and a wealth of proprietary technology, from new drivers to the bespoke gold-plated cables. Sit back and indulge in sound sophistication like never before.

Denon's proprietary 50mm Free Edge Nano Fibre Drivers maximize sound quality and efficiency

Denon is well known as an innovator in the world of audio technology. And the company's latest headphones continue this acclaimed tradition. Denon's proprietary Free Edge Nano Fibre Driver sets new standards in sound reproduction. Designed to provide the performance of a high-end loudspeaker from an Over-Ear Headphone, it delivers unprecedented sonic clarity and dynamic range.

DENON AUDIO APP

Denon Audio App application, available for iPhone, iPad, or Android phones enhances the listening experience by providing:

- High quality audio player with instant playlist creation capability
- Ability to create, save and share custom EQ curves with an integrated 100-band equalizer
- Choose from myriad EQ presets
- Update your Facebook or Twitter status about the music you like with a touch of a button

FITS LIKE YOU

Feel the music. Not your headphones

At Denon we believe you should feel the music, not your headphones. In a quest to provide the most comfortable headphones, Denon's engineers have studied over 4,000 pairs of ears from people around the world, to come up with a design that automatically accounts for the subtle differences in ear shape, placement, ear canal size, and head size. We know that fit and comfort comes from paying attention to the smallest details. Denon's patent-pending pentagonally-shaped memory foam ear pads provide exquisite comfort, while our ball and socket ear cup design delivers the ultimate custom fit.

MOVES LIKE YOU

At Denon we know that a best-in-class listening experience is all about the details. These new flagship headphones come with integrated cable connections on the ear cups and come with a choice of two detachable high quality cables: either a 99.99% OFC (oxygen-free copper) audiophile cable with a gold-plated ¼" adapter jack for home listening or an on-the go cable with in-line remote and microphone, so you can control your Apple® iPod®, iPhone® or iPad™.
