/DenonEurope

Did you know that listening to music while working out can enhance your performance by at least 20% Denon has developed the ultimate wireless fitness headphones that are your perfect training companion. Sweat proof, featuring stereo Bluetooth® 3.0 wireless connectivity, and an integrated amplifier professionally tuned to energise your workout. Completing the package is a seven hour rechargeable battery and integrated controls and microphones for on-the-go use, meaning the Denon's Exercise Freak AH-W150 In-Ear Headphones keep the music going without getting in the way of your work out.

SOUNDS LIKE YOU

Your gym soundtrack will push you to excel, thanks to professional tuning and an integrated amplifier

We know that the right song can be more motivating than a personal trainer. So combining your favourite song and a pair of Denon Exercise Freak In-Ear Headphones allows you to take control of your exercise regime. Denon Exercise Freak In-Ear Headphones feature an integrated amplifier and are professionally tuned to provide a powerful bassline to energise your workouts, no matter what your soundtrack. These headphones feature a seven-hour rechargeable battery (USB charging cable included) and provide audio alerts for low battery status and operation feedback.

FITS LIKE YOU

Secure fit and sweat proof design allows you to focus on your workout

To create the best-in-class fitness headphones we wanted we worked with leading fitness experts while testing our design prototypes. This helped us to craft the superior design you see before you. Denon's Exercise Freak In-Ear Headphones headphones feature a flexible neckband and articulating in-ear design to fit you perfectly. These headphones are designed to be sweat proof and feature built in air cushions on each side for comfort and added ventilation.

Reflective Back band for safe evening workouts

The Denon Exercise Freak In-Ear Headphones include a reflector on the neckband to provide added safety for evening workout activities. They also come with anti-microbial silicon ear tips (XS, S, M, L), a USB Micro cable (for charging the battery), and a mesh carrying case.

MOVES LIKE YOU

Unleash your maximum performance with wireless Bluetooth 3.0 connectivity

Denon's Exercise Freak In-Ear Headphones feature Bluetooth 3.0 connectivity. With a range of up to 25 feet, you can even set your smartphone down on a treadmill or on the floor when you're lifting weights at the gym.

Take back control... with Denon's integrated controls and microphones

Your fitness routine is the one time of the day that you get the chance to think, to reflect, and to focus on yourself. Denon's integrated controls allow you to adjust the volume, play/pause your music and even choose to answer that phone call, while never breaking your stride.
