Headphones

WHAT THE EXPERTS SAY

STEREO & VIDEO

"Excellent resolution, stage is very broad and rather open for a closed design. Width of frequency range doesn't have audible restrictions. Bass is very deep...and treble is easy, transparent and unostentatious. Overall pleased with the high quality and musicality. Music maniacs will be satisfied..."

Stereo & Video Magazine // Russia // January 2012

"Certainly a great headphone! The latest high-end Denon impresses. A lot of quality, a full success!"

Lesnumeriques.com // France // May 2013

"A mix of luxury, tradition and modernity" "the details of mixing, the small atmosphere sounds are extremely well detailed. The overall is perfectly coherent and natural."

Onmag.fr // France // August 2013

MUSIC emotion

"Whichever music played, either classical or jazz, hard trance or fragile pop, the Denon AH-D7100 impressed on all levels. The earlier mentioned bass response is phenomenal, the transparency and refinement are reference quality, the speed and timing are first-class."

Music Emotion // The Netherlands // September 2013

DENON[®]

AH-D600 Music Maniac™ Over -Ear Headphones

Elegant and sophisticated high-end designs that offer sound quality to match. Featuring Denon's 50mm "Free Edge Nano Fibre" drivers, pentagonal memory foam ear pads that articulate 360° and detachable cable connections, these headphones deliver the best performance and comfort no matter what type of music you're listening to.

"With the AH-D600 Denon delivers a convincing headphone, that deserves a 'very good' from us."

AudioVision // Germany // February 2013

"What you get is a surprisingly detailed, insightful headphone that digs deep into the music. So much so that it makes a number of already excellent, but more expensive designs, sound quite average in some ways."

HiFi Choice // United Kingdom // December 2013

"During our tests, we found the exact same excellent level of comfort with the AH-D600 that we noticed for the AH-D7100. The AH-D600 produces beautiful prowess, especially in the deep bass frequencies, power handling, the size of the soundstage or even the overall cleanliness of the reproduction."

Onmag.fr // France // August 2013

"Denon's AH-D600's offer some seriously good hi-fi sound."

mixmag.net // United Kingdom // November 2013

WHAT THE EXPERTS SAY

AH-D340 Music Maniac™ On-Ear Headphones

Elegant, sophisticated providing an audiophile-grade listening experience from a smaller on-ear form factor. Featuring 40mm drivers and tuned to a flat EQ, these headphones deliver superior sound quality no matter what you're listening to.

"Hit play and you're treated to warm sound and precise detail..."

T3 // United Kingdom // February 2014

"The overall balance is the AH-D340's real strength, offering a beautiful mix of punchy bass and delicate and clear high-end."

iCreate // United Kingdom // Issue 121

"The Denon AH-D340 qualifies as a mobile headphone with high sensitivity and a pleasant, punchy sound."

Test Winner

Audiovision // Germany // July 2013

"I love the **AH-D600**, it is very comfortable and let's me isolate myself when I want to be in my bubble before or after training and racing."
